## Additional Tests

### When a Student Enters School

- Have a parent complete the application form
- Request cumulative record card, health records, and special testing data from last school attended.
- If North American Division Cumulative Record card is received, enter current information.
- If no North American Division Cumulative Record is received, begin a new one.

### Transfer of Records

- Upon written request by parents, the cumulative record card, health records, and special testing data should follow student transferred to another school.
- All cumulative record cards, health records, and special testing data are sent to the local conference Office of Education.
- Discarding the folder - If five years after the student transfers to another school the cumulative record card is not requested, file the Cumulative Record card as a permanent record in the school. Remove and destroy other material in folder.

### Maintaining Records

- Place Cumulative Record card in standard manila file folder labeled with student's name.
- Other material to be filed in folder: Current application, Current consent to treatment form, School copies of student progress reports, Standardized test profiles, Individual reading record.
- Check and update all folders at beginning of school year.
- Changes and additions to data should be entered during year as necessary.
- Keep folders in locked, fireproof file at school.
